

Yandi Stacker Reclaimer Line Grouting

Client Thiess

Job Description

DGL was contracted by Thiess to complete 12,000 grout pads for the Stacked and Reclaimer line at BHP, Yandi in the Pilbara region of WA. Due to the high temperatures and remote location several challenges were faced during this project. The job involved:

- Forming of grout pads
- Pouring grout then shaping to achieve the profile desired by BHP
- Curing to resist cracking in the high temperatures
